📁 Employment History

Internship, Tozeur

January 2024 — February 2024

I completed an internship at Tunisie Telecom, where I gained practical experience in the telecommunications industry. During this period, I was involved in tasks related to network infrastructure, customer service support, and IT systems management. I collaborated with engineers to monitor and troubleshoot network issues, gaining insight into telecommunications protocols and tools. Additionally, I worked on optimizing internal processes by analyzing data and suggesting improvements. This internship enhanced my technical skills, problem-solving abilities, and teamwork, providing me with valuable exposure to real-world IT and telecom operations.

🎓 Education

Systems Development, ISET Tozeur, Tozeur

September 2023 — July 2026

I earned a Bachelor's degree in Information Systems Development (DSI) from the Higher Institute of Technological Studies (ISET) in Tozeur. The program provided me with solid knowledge in software engineering, web development, and database management. I gained hands-on experience in object-oriented programming (OOP), SQL/MySQL, and technologies such as PHP, Angular, and React through coursework and projects. Additionally, I developed strong problem-solving and teamwork skills by working on various real-world applications and collaborative assignments, preparing me for roles in both frontend and backend development.
